

RELEASE NOTES

2025-03-19: ADMA Data Analyzer Version 1.14.40

- Added: show Warn_Mounting_offsets in Errors/Warnings tab
- Added: additional channel "GNSS_Stddev_COG" for ADMA PP export

Note: This version requires MATLAB Runtime 2024b (24.2) which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)

2025-02-14: ADMA Data Analyzer Version 1.14.37

- Fixed: sporadic error during import
- Fixed: KML export between cursors

Note: This version requires MATLAB Runtime 2024b (24.2) which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)

2024-11-28: ADMA Data Analyzer Version 1.14.32

- Added: ABDynamics Reference Line export
- Added: import of ADMAnet data format v3.3.6
- Added: import of LatDev data format v1.0.1.0
- Added: import of ADMA Data Logger files
- Changed: improvements of map plot
- Changed: move "clear plots button" to top
- Fixed: sporadic error during import of more than one dataset
- Fixed: import of gsdb files including ADMA steering robot data packets
- Fixed: minor bugs

Note: This version requires MATLAB Runtime 2024b (24.2) which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)

2024-02-29: ADMA Data Analyzer Version 1.13.31

- Added: import of ADMAnet v3.3.5
- Added: range slider is now be used for both cursors
- Added: axis equal option in trajectory plots
- Added: a logfile is now saved in the following location:
%AppData%\Roaming\GeneSys Elektronik GmbH\ADMA Data Analyzer\logfile.txt
- Changed: new GUI design
- Changed: map plot is now included in the main GUI
- Fixed: import of Dewesoft data when channels are named with "GNSS" instead of "GPS"

ADMA Data Analyzer

Release Notes

Note: This version requires MATLAB Runtime 2023b (23.2) which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)

2023-08-11: ADMA Data Analyzer Version 1.12.30

- Added: import of ADMA steering robot data
- Fixed: timestamps in data export when system locale contains non-latin characters

Note: This version requires MATLAB Compiler Runtime 2022b which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)

2023-06-20: ADMA Data Analyzer Version 1.12.25

- Fixed: import of gsdb files when system locale contains non-latin characters

Note: This version requires MATLAB Compiler Runtime 2022b which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)

2023-03-10: ADMA Data Analyzer Version 1.12.10

- Added: First customer release version
- Added: Import and synchronization of ADMA datasets:
 - o Ethernet Logger / ADMA data looger data: .gsdb, .gsda
 - o ADMA PP output data: .txt

Note: This version requires MATLAB Compiler Runtime 2022b which will be installed by the GeneSys Software Suite if you install the ADMA Data Analyzer. (mathworks.com/products/compiler/matlab-runtime.html)
