Note: Suitable for ADMA FW 30.10.x.x (ADMA 3.0 HW) and FW 35.3.x.x (ADMA 3.5 HW).

2024-11-13: ADMA Data Logger CLI Version 1.0.12

- Added: New ADMAnet data format version 3.3.6.
- Added: New Add-On LatDev data format version 1.0.1.

Note: Suitable for ADMA FW 30.10.x.x (ADMA 3.0 HW) and FW 35.3.x.x (ADMA 3.5 HW).

ADMA Data Logger CLI

Release Notes

2024-03-08: ADMA Data Logger CLI Version 1.0.10.0

- Added: New ADMAnet data format version 3.3.5.
- Changed: GUI Layout Update.
- Fixed: Wrong definition of data format Add-On LatDev version 1.0.0.
- Fixed: Deadlog while recorder error.

Note: Suitable for ADMA FW 30.10.x.x (ADMA 3.0 HW) and FW 35.2.x.x (ADMA 3.5 HW).

2023-08-10: ADMA Data Logger CLI Version 1.0.9.8

- Added: Add-On Delta 1:5 visualization and logging.
- Added: Add-On LatDev logging.
- Added: Target Data logging.
- Added: Compatible with FW35.1.x.x and FW35.2.x.x JSON formats.
- Changed: Default file naming for binary data files.
- Changed: The overview page can be scrolled with the arrow keys if the window size does not provide enough lines.
- Changed: When adding an ADMA, you can use the arrow keys to scroll through default IPs. These can also be edited.
- Fixed: Program log page can now also be displayed if no ADMA has been configured.
- Fixed: Automated recording restart fixed.

Note: Suitable for ADMA FW 30.10.x.x (ADMA 3.0 HW) and FW 35.1.x.x (ADMA 3.5 HW).

2023-06-01: ADMA Data Logger CLI Version 1.0.8.9

- Changed: GUI Layout Update.
- Changed: Global logfile enabled by default.
- Changed: Overall software paths updated to linux standards.
- Changed: Replacing special characters in the names of saved files with underscores (LINUX).
- Fixed: Performance improvement and fix of memory leaks.
- Fixed: Continous kalman filter initialization progress visualization.
- Fixed: The Overall GNSS HW State LED now checks, if the dual antenna function is enabled at menu 6 (ADMA) for indicating a warning of no antenna connection at the secondary antenna interface.

Note: Suitable for ADMA FW 30.10.x.x (ADMA 3.0 HW) and FW 35.0.x.x (ADMA3.5 HW).

2023-03-20: ADMA Data Logger CLI Version 1.0.7.0

- Changed: Update framework to .NET 6.0.
- Fixed: Environment paths if the program was started under Linux.
- Fixed: Access to global log file.
- Fixed: Display of long program messages.

Note: Suitable for ADMA FW 30.10.x.x or older.

2023-03-02: ADMA Data Logger CLI Version 1.0.6.0

- Added: Program state on main page.
- Added: Base saving path on main page.
- Added: Recording state on main page.
- Added: Scrollable menu ribbon.

Note: Suitable for ADMA FW 30.10.x.x or older.

2023-02-03: ADMA Data Logger CLI Version 1.0.1.0

- Added: Menu items to open the location of the measurement data and the configuration file of the ETL CLI.
- Changed: Automatic restart of data recording is only performed when at least one data packet was received from every connected ADMA before.
- Changed: Data recording can only be started if the configurations of all connected ADMA systems have been loaded successfully.

Note: Suitable for ADMA FW 30.10.x.x or older.

2023-02-01: ADMA Data Logger CLI Version 1.0.0.0

- Added: Initial release version as multi CLI ADMA logging software.

Note: Suitable for ADMA FW 30.10.x.x or older.
